

COGNITIVE APPLICATION DESIGNED TO DIGITIZE TEACHING IN REGIONAL EDUCATION

Veronika Kubáčková, Ivo Martiník

VŠB-Technical University of Ostrava
Faculty of Economics
veronika.kubackova.st@vsb.cz, ivo.martinik@vsb.cz

Outline

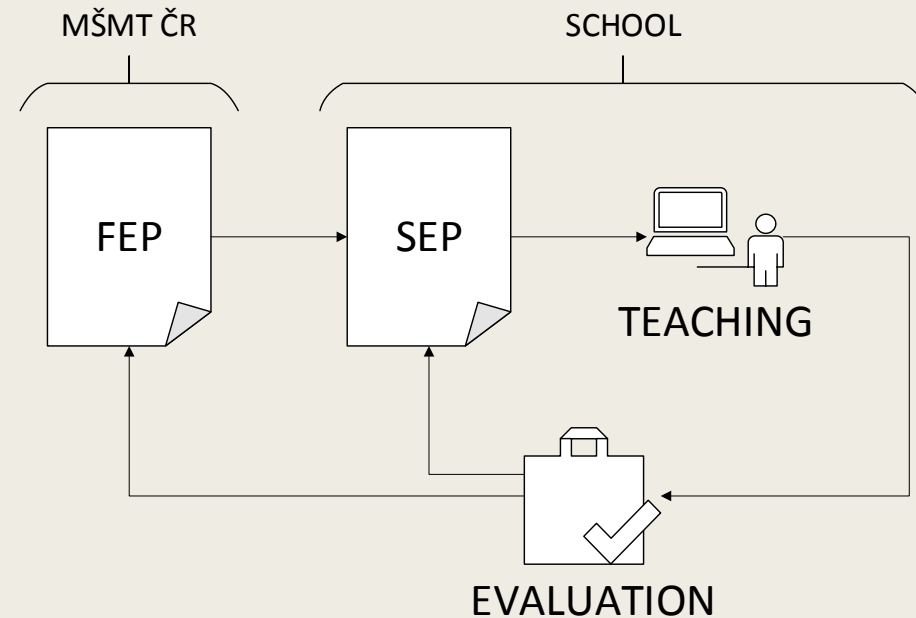

- Background
- Educational System
- Cognitive Services
- IBM Watson

Background

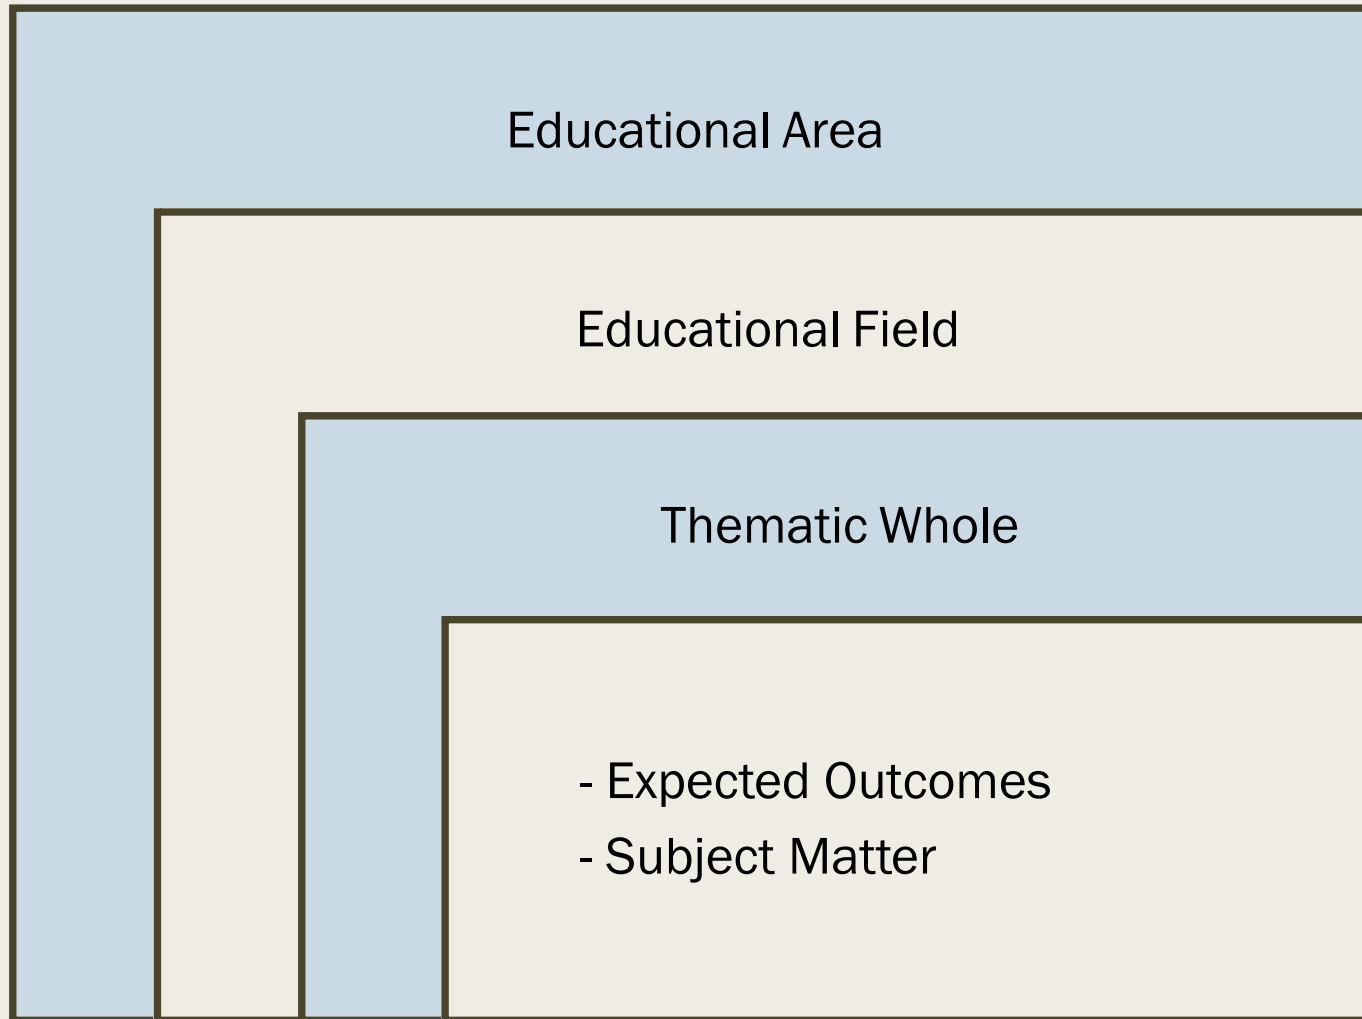

- VRK plus s.r.o.
Software Development Company specializing on Educational Domain
- Faculty of Economics, VŠB – Technical University of Ostrava
Department of Applied Informatics

Educational system in Regional Education

- Framework Educational Programs (FEP)
- Scholar Educational Programs (SEP)

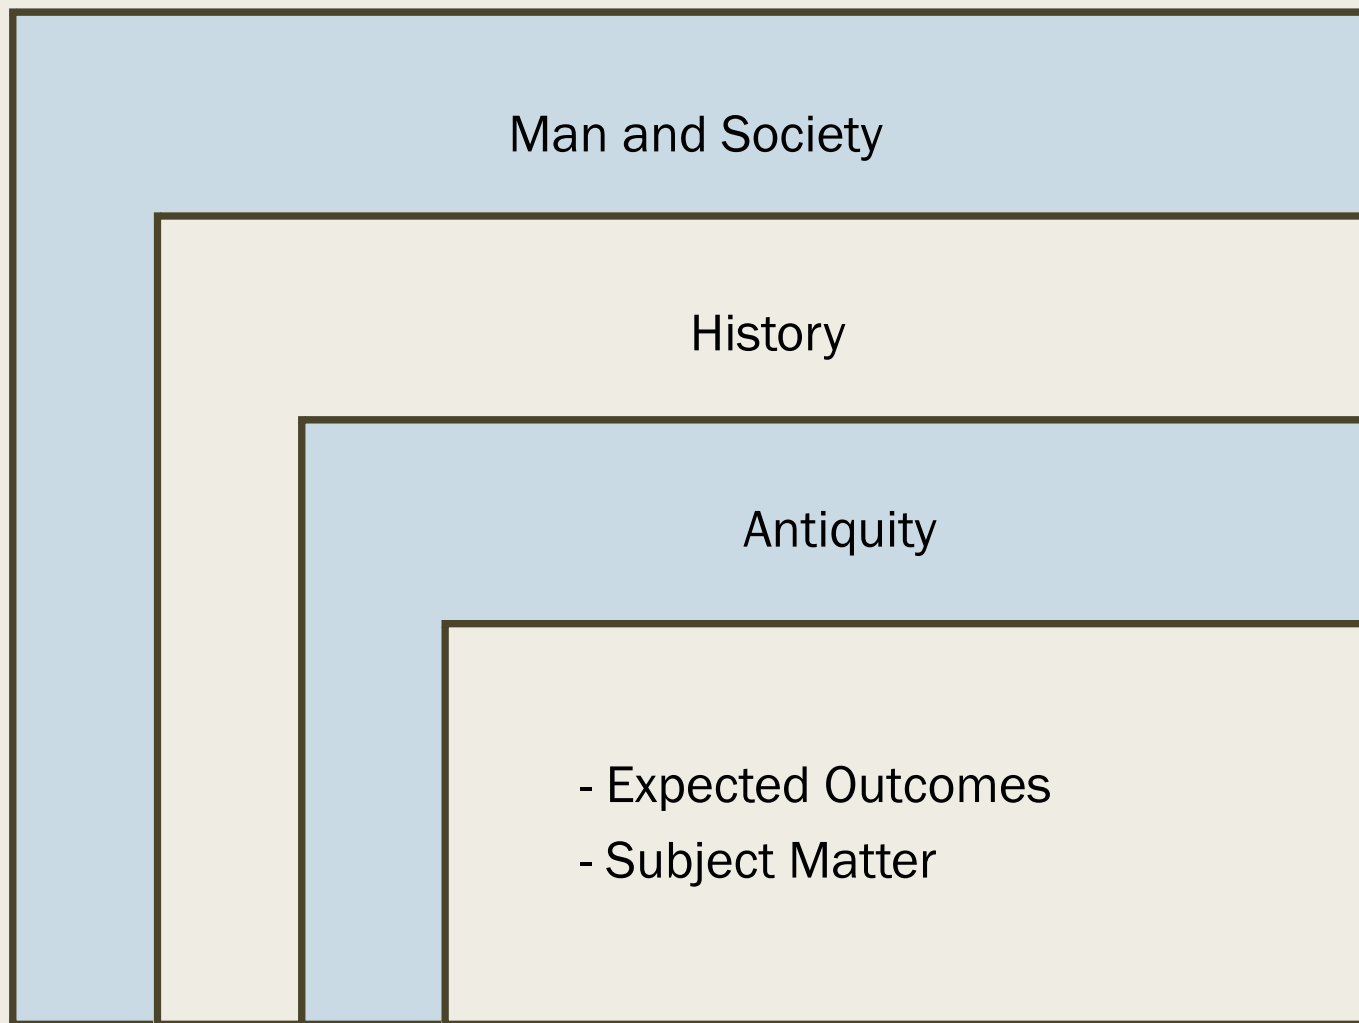

Structure of Educational Programs

Structure of Educational Programs

FEP for Secondary General Education (Grammar Schools)

Learning Outcomes

ANTIQUITY

Expected Outcomes

The pupil shall:

- ▶ explain the contribution of selected ancient societies, of Antiquity and Christianity to civilisation as the basic phenomena from which European civilisation has developed
- ▶ elucidate Judaism (the link between Judaism and Christianity) and other non-European religious and cultural systems
- ▶ describe the determining processes and events, and list the important figures of ancient history

Subject Matter

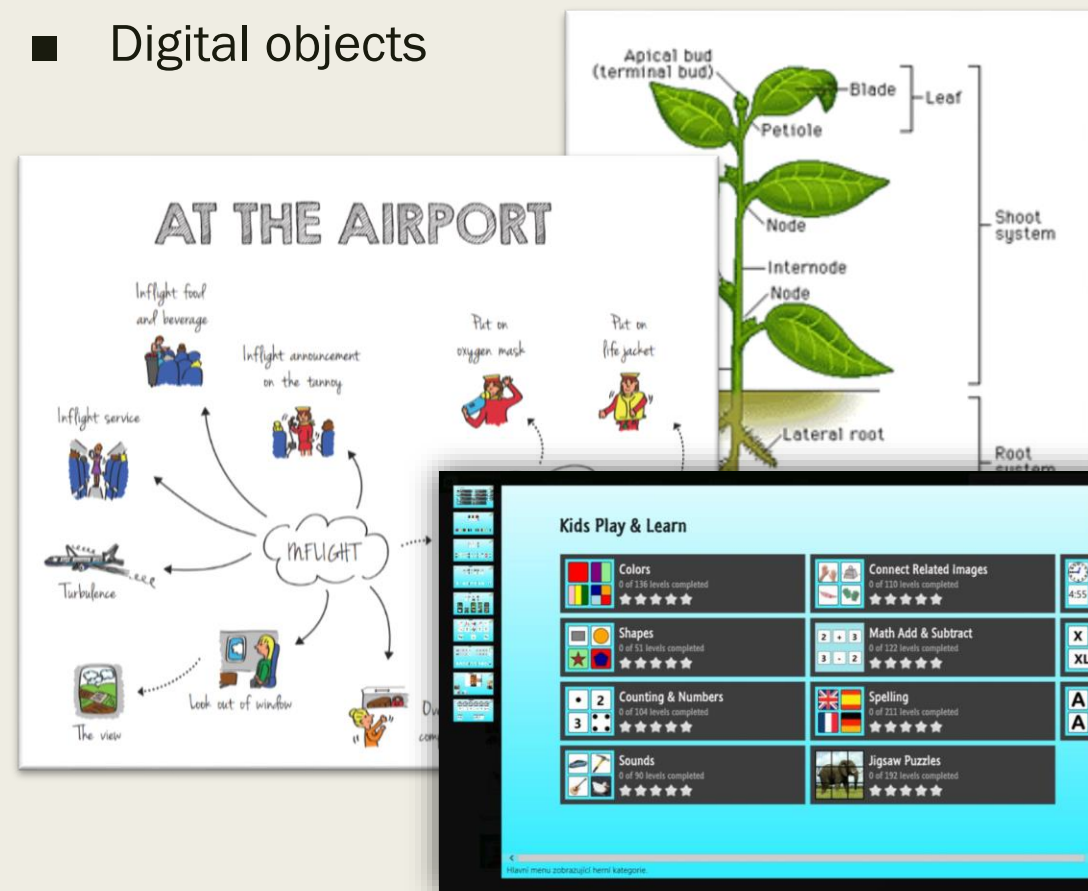

- **ancient Oriental states (Mesopotamia, Egypt, India, China)**
- **ancient Greece**
- **ancient Rome**
- **our lands and the rest of Europe in Roman times; civilisation and barbarism, the Limes Romanus as the boundary of Western civilisation**

Teaching Support Materials

■ Standard materials

■ Digital objects

Project Electronization of Education in the Czech Republic

- **CS** Elektronizace výuky s vazbou digitálních vzdělávacích objektů na rámcové vzdělávací programy
- **EN** Electronization of Education with the Link of Digital Educational Objects to Framework Educational Programs
- CZ.01.4.04/0.0/0.0/15_005/0002733

EUROPEAN UNION
European Regional Development Fund
OP Enterprise and Innovations
for Competitiveness

Main Goals of the Project

- Launching portal ceske-skoly.info
- Publishing FEP in structured form
- Sharing materials with colleagues and other schools
- Linking digital educational objects (DEO) to FEP

Use of Cognitive Computing

- Processing FEP and SEP
- Identifying different types of DEO
- Searching relations between EP and DEO

- Big Data Analysis
- Natural Language Processing
- Visual Recognition

Cognitive Services on Cloud

Artificial Intelligence on AWS

Watson Services in IBM Bluemix

- Conversation
- Discovery
- Document Conversion - deprecated
- Language Translator
- Natural Language Classifier
- Natural Language Understanding
- Personality Insights
- Retrieve and Rank - deprecated
- Speech to Text
- Text to Speech
- Tone Analyzer
- Visual Recognition
- Knowledge Studio

Natural Language Understanding

- Keywords
- Entities
- Categories
- Concept
- Semantic Roles
- Sentiment
- Emotion

Examine a news article or other content

Conclusion

- Extending EU project
- Application based on cognitive services
- Using IBM Watson in IBM Bluemix
- At first in English

Thank you for
your attention.
